Kritsakorn Chunsangtong

A Team Lead with over 15 years in the banking industry, focused on developing and stabilizing essential financial systems. I believe that sustainable efficiency starts with a clear understanding of both technical architecture and business needs, ensuring that every solution is built on a solid foundation rather than just immediate effort.

I advocate for well-managed workloads and reasonable timelines, which are necessary for reflection, continuous learning, and self-improvement. I am committed to the principle that working with genuine insight and a balanced mind leads to the most robust solutions, ensuring both excellence in delivery and long-term professional quality of life.

Work Experience

October, 2022 – Present

Kasikorn Business-Technology Group (KBTG)

Advanced Software Engineer (Team Lead)

- Eliminated critical back-office system performance bottlenecks, removing the need for mid-day service restarts and ensuring seamless business operations during working hours.
- Spearheaded the resolution of complex IT Problems within the Inward Remittance [API] domain, achieving zero recurring and outstanding problems by 2024 through structural root cause analysis.
- Formulated the architectural roadmap and technical solutions for Inward Remittance [SWIFT], successfully securing approval from the Solution-Architecture forums.
- Managed a development team to deliver downstream system enhancements 2 weeks ahead of schedule, providing additional capacity for critical Change Requests (CR).
- Orchestrated a large-scale customer migration with zero production incidents, ensuring a seamless transition and maintaining full data integrity.
- Architected an efficient data-mart integration for 400+ tables to the Data Warehouse within 2 weeks development cycle.
- Developed financial and technical roadmaps for Server End-of-Support initiatives, mitigating infrastructure risk and supporting long-term infrastructure planning.

Projects: *Global Payment System (GPS)*
Inward Remittance [API], [SWIFT], Remittance for CIPs

Living: *Near BTS Talad phu zone, Thonburi, Bangkok*
Phone*: 098-534-9655*
Email*: leftypinkg@gmail.com*

Technology skills

Languages & Frameworks:
Java 5-8, Spring Boot, Spring, Struts, Hibernate, JPA, JSP/JSTL

Databases:
Oracle, PostgreSQL, DB2, MySQL, PL/SQL

Infrastructure & Tools:
Google Cloud Platform, JBoss EAP, Tomcat, Maven, Swagger, SonarQube, Git/SVN, Shell Script

Education

2015 –2017

Thammasat University

Master of Science in Information Technology Policy and Management (CIO)

College of Innovation

2006 – 2010

Suan Dusit Rajabhat University

Bachelor of Science in Computer Science

Faculty of Science and Technology

Infinitas by Krungthai Co., Ltd.

July, 2021 – August, 2022

Associate director (Team Lead, System Analysis)

Outsource, **Prior Solution Co., Ltd.** (July, 2021 – October, 2021)

- Requirement and solution discussion with PO (Product Owner).
- Negotiate with other parties to ensure the project meet with timeline as smooth as possible.
- Planning and organize sprint backlog with BA (Business Analysis) for the frontend, backend and tester team.
